

Stellar Phoenix Sun Solaris

Installation Guide

Version 2.0

Overview

Stellar Phoenix Sun Solaris is a recovery software which recovers data from corrupted or damaged UFS volumes. It actually works on Windows platform. You need to attach the Solaris disk as secondary disk and recover data. This software is compatible with both Solaris Intel and Solaris Sparc platforms.

Stellar Phoenix Sun Solaris mainly provides two types of recovery options - Quick and Advance Recovery, to retrieve data from UFS volumes. You can also recover data from volumes that were deleted to create new volumes. Efficient scanning process will list all UFS volumes that are deleted from disk and data from these volumes can be extracted using recovery options.

You can view status of hard disk and create image of hard disk. Also, image of volumes can also be created by using this software. You can save images and can recover data from them at any time. In addition, you can also create an exact replica of hard disk by using cloning feature of Stellar Phoenix Sun Solaris.

Stellar Phoenix Sun Solaris allows you to resume recovery at any time by using image (.img) files. Two types of image file can be used - scan information file and image of hard disk or volume.

Key Features of Stellar Phoenix Sun Solaris:

- Recovery of data from UFS volumes
- Recovery of deleted volumes
- Recovery of data from deleted volumes
- Restart recovering data by using image files
- Cloning of hard disk
- Image creation of hard disk or volume, in addition, image of selected region of hard disk or volume
- View statistics of hard disk
- Provides disk scanning to check for the bad sectors

- Compatible with Solaris Intel and Solaris Sparc platforms

Installation Procedure

Before installing the software, ensure that your system meets the minimum system requirements.

Minimum System Requirements:

- **Processor:** Pentium Class
- **Operating System:** Windows 2000 / 2003 / XP / Vista/ Windows 7
- **Memory:** Minimum 256 MB of RAM (512 MB recommended)
- **Free space on hard disk:** 30 MB

To install the software:

1. Double-click Stellar Phoenix Sun Solaris **Setup** file **StellarPhoenixSunSolaris.exe** to start the setup process. The Setup - Stellar Phoenix Sun Solaris dialog box opens. Click **Next**.
2. In the License Agreement screen, select **I accept the agreement** option. The Next button will be enabled. Click **Next**.
3. In the Select Additional Tasks screen, check the required check boxes. Click **Next**.
4. In the Select Destination Location screen, provide the path by using Browse button where the setup files will be stored. Click **Next**.
5. In the Start Menu Folder screen, provide the path by using Browse button where the program's shortcuts will be stored. Click **Next**.
6. In the Ready to Install screen, review the settings. Click **Back** to change settings. After confirming the settings click **Install**. The Installing screen shows the installation process.
7. After completing the process, the Completing the Stellar Phoenix Sun Solaris Setup Wizard screen opens. Click **Finish**.

You can clear the Launch Stellar Phoenix Sun Solaris check box to stop the automatic launch of the software.

How to Order?

The software can be purchased by making payments online using a credit card. Please visit www.stellarinfo.com/disk-recovery/unix-solaris-intel/buy-now.php for more information and to place an order.

Alternatively, if the demo version is installed then you can register the demo version. To register the demo version click **About** icon, click **Register** button to start the registration process.

Once the registration is complete, an activation serial number along with activation details is sent through email. This activation serial number is required to register the software.

How to Register?

If the software is downloaded from stellar website (i.e., ESD version), for the full functionality, the product must be registered using Serial Number (received through email after purchasing the product).

If the software is installed using the product installation CD (i.e., BOX version), hardware lock  is mandatory for the functioning of the software that is available with the software kit.

After purchasing the software, you will receive the serial number, which is required to register the software. The serial number will be verified during the registration process and if the serial number is valid then the software will be registered.

The software can be registered in different ways. These are the methods by using which you can register the software:

Over internet

You should have the serial number, which is received after purchase of the software. On entering the serial number it is verified by license server and on verification the software will be registered.

Using Email

If the registration of the software by using Online Registration or Manual Activation is not successful then you can still register the software by using email. An email will be send to online-register@stellarinfo.com either automatically or manually by the Stellar Phoenix - Electronic Software Registration wizard. The software will be registered automatically, when Internet connection is available on your computer.

Manual Activation

You will need to generate a PHX_REG.txt file and mail the .txt file to support@stellarinfo.com. After verifying the serial number and purchase details of the software, the site key will be delivered to you at your email address. This site key is used to register the software manually.

Registration Over Internet

To register the software over Internet:

1. Click **About** icon, click **Register** button. The Stellar Phoenix dialog box opens, check the '**I have the registration key**' checkbox and select **Online registration** option. Click **OK**, and then click **Yes**.
2. In the Welcome to Stellar Phoenix - Electronic Software Registration wizard, click **Next**.
3. Type the Serial number (received through email after purchasing the product) in the Serial number text box. Click **Next**.
4. The software would automatically communicate with license server and register the software. Click **Finish** to complete the registration process.

- If you do not have the key, check the '**I do not have the registration key**' checkbox to purchase the software and receiving the registration key.
 - If the software fails to register over Internet then an error message will be shown regarding the Casper default value. Click **OK**. Stellar Phoenix dialog box that opens will provide you the option of sending serial number to license server. In reply, license server will send a site key, which is used to register the software manually. Click **Yes** and follow the steps 3 to 7 of manual activation topic to manually register the software.
 - In addition, you can generate the PHX_REG.txt file manually by starting the online activation. View manual activation topic to perform the process of generating PHX_REG.txt file.
-

Registration by Using Email

To register the software by using email

While activating the product over Internet, if the software could not communicate with the server, an error message will popup.

1. Click **OK**, to register through email. The Stellar Phoenix - Electronic Registration Wizard for sending the authorization request will appear.
2. Leave the checkbox **Manually send email** clear and click **Next** to continue.
3. Type your email address in the textbox. The unlocking code will be sent to this email address. Click **Next**.
4. In the Verify Email Address screen, verify the email address you have entered and click **Yes**.
5. If your email client is blocking the process, the following dialog box appears, it depends on your email client here Microsoft Outlook example is given. Click **Yes**, and then click **Finish**.

The software automatically launches the default email client, and sends an email containing your unique site code with registration request to the registration server.

If the registration wizard could not launch the default email client, message will appear. Click **OK**, to continue the process manually.

1. Open your email client (like Outlook Express, MS outlook, Eudora etc) and create a new message.
2. Place the cursor in the box labeled **To** and press **CTRL+V** to paste address. If it does not work, right click on the **To** box and select **Paste** from the popup menu. The **To** box will contain the address. Click **Next**.

3. Place the cursor in the Subject box in the same message window and paste (method same as above) the text. The Subject box will contain the Registration Request text. Click **Next**, do the same process mentioned above to paste the encrypted text content in the body of the message.
4. Click **Next** to finish the procedure. After clicking Finish, click send button in your email client to send the email.

After processing your email, registration server would send you an email containing unlocking code/site-key.

Manual Activation

To register the software by using manual activation process:

1. Click **About** icon, click **Register** button. The Stellar Phoenix dialog box opens, check the **I have the registration key** checkbox and select **Online registration** option. Click **OK**, and then click **Yes**.
2. In the Welcome to Stellar Phoenix - Electronic Software Registration Wizard, click **Cancel**. In the Stellar Phoenix dialog box, click **Yes**.
3. In the Manual Registration screen, enter the serial number, which is received after the purchase of the software. Click **Next**.
4. A PHX_REG.txt file will be created on desktop. Email the text file to the email support@stellarinfo.com address. You can click the link given in the screen to start to automatically compose the email for the given email address. Click **Finished**.
5. After verifying the purchase details, you will receive the site key that is required to register the software by using manual activation.
6. When you receive the site key, open Stellar Phoenix Sun Solaris, Click **About** icon, click **Register** button. The Stellar Phoenix dialog box opens, check the **I have the registration key** checkbox and select **Manual Registration** option. Click **OK**.
7. In the Manual Registration screen, type the **site key**, which is received after sending the PHX_REG.txt file. Click **Validate** to register the software.

User Interface

Stellar Phoenix Sun Solaris software has a very easy to use rich Graphical User Interface. Both, technical and non-technical users can use the software easily.
