

Stellar Phoenix Excel Repair

Version 5.0

User Guide

Overview

Stellar Phoenix Excel Repair is designed to repair corrupted Microsoft Excel (.xls and .xlsx) files. This software scans all selected Excel files and uses an advanced algorithm to restore Excel files back to their original state. The repaired files can either be saved to their original location on the hard disk, or to any user-specified location.

You can preview the Excel files before saving to a location. You can search for Excel files in folders and drives. You can save all or individual files. In addition, you can save files to original location or specific location.

- **To clear log information**
 - o On the Tools menu, select **Clear Log**.

FAQs

1. What is Stellar Phoenix Excel Repair?

Stellar Phoenix Excel Repair is designed to repair corrupted Microsoft Excel (.xls and .xlsx) files. This software scans all selected Excel files and uses an advanced algorithm to restore Excel files back to their original state. The repaired files can either be saved to their original location on the hard disk, or to any user-specified location.

2. I have forgotten the path of my Excel file can I search the Excel file using the application?

Yes, Excel files can be searched in a drive or a specified folder. Click 'Search File(s)' option in the Stellar Phoenix Excel Repair application and follow the process.

3. What are the limitations of the demo version of the software?

Demo version of software is just to show you the possibility of repair. If you are satisfied with the demo then you can purchase full version of software. You can repair corrupted file with full version software.

4. How to repair multiple Excel files at same time?

To repair multiple files at same time, you have to add all of them into the software. To add multiple files:

- Click  icon on the tool bar, or on **File** menu, select **Add File to Tree View**.
- In the Stellar Phoenix Excel Repair dialog box, click **Select Folder**.
- In the Browse for Folder dialog box, browse and select the required Folder. You can also select a volume. Select folder or volume. Click **OK**, and then click **Scan**.
- In the Stellar Phoenix Excel Repair dialog box, all files that are found in the selected folder or volume are listed. Check the check boxes of files that needs to be repaired. Click **Scan**. All files will be listed in the left pane under Stellar Phoenix Excel Repair node.
- Follow the repair process.

5. How much time the Stellar Phoenix Excel Repair will take to repair the file?

The scanning time depends upon the corruption level, size and number of Excel sheets. If the process is running that means that software is still scanning the corrupted file and you have to wait for scanning process to complete. Once scanning is complete you will get the repaired file at the selected destination.

6. I want to analyze the repair process. Can I see the log report at a later stage?

Yes, the application gives you option to save and view log report at a later stage. To save log report,

- On the Tools menu, click **Save Log**.
- Log report is saved at the specified location in text format.
- To view the report, visit the location and open the file.
